**Investing in Dividend  
Stocks: Making High Profit  
Even in Difficult Times**

"With dividend stocks, I collect a steady 9-10% a year, so if and when a major economic turmoil hits the stock market, I am still in the black while others lose a large chunk of their investment."

**Robert  
King**

Investing in Dividend Stocks: Making High Profit Even in Difficult Times by Robert King is a booklet with over 4,200 words. It discusses high dividend stock investing and the method King uses to generate annual dividend income of approximately 9-10% while diversifying his portfolio and minimizing investment risk. King also discusses how anyone can get started, if and when to sell stock, and various income tax considerations.

Robert King has been investing in stocks for over a decade and has developed a profitable dividend stock investing system that provides him with a steady source of additional family income. He also has authored numerous printed books and dozens of eBooks.
