Jeff's Beginning is an adult based story with violent, sexually explicit scenes. It is a story of Good versus Evil and involves two groups of Supernaturals. The Seventh Street Slayers and their Queen, Stevee Montoya battle to keep the streets of New York City and it's surrounding communities free from the Evil group of Vampires belonging to Vancor Hawthorne, one of the original Vampires from Romania. Jeff Anderson, the Jaguar shape shifter of the Slayers is found near death along side of the road and taken into custody by the Hawthorne Vampires. His memories are painfully bound and he is turned into a Hybrid, a Jaguar with a Vampire side. The battle to free Jeff continues with yet another young girl, Kaitlynn Ryan, taken from the street to be used as a Sânge Prizonier or blood prisoner by the Hawthorn Elita Echipă (grup) or Elite team, discovered by Jeffrey. Her scent triggers recognition from his past and he fights to keep her his until the Slayers rescue them.
