Under the Amoral Bridge

Artemis Bridge is the know-who, go-to guy, the amoral fixer in 2028 Los Angeles with the connection for any illicit desire no matter how depraved. You need it, he can get it without questions or judgment. He prides himself on staying detached from the depravity, untouched by the filth, untouchable by the law. When a young hacker is assassinated before his eyes, he is burdened with a scandalous video of the mayor on the eve of the city's most important election of the century. With digital assassins and murderous thugs dogging his every step, he has only days before the corrupt mayor is re-elected, handing the Chronosoft Corporation complete control of the city. Unable to sell the video, he is forced further into a complex conspiracy. This taut futuristic thriller is the debut novel by Gary A. Ballard, a rising new talent in the cyberpunk genre.

"...well written and a joy to read, Ballard paints imaginative scenarios and environments"

"Ballard does a complete and thorough job of world building."

The Know Circuit

Artemis Bridge can get you what you need no matter how immoral or illegal, no questions asked. With practiced detachment, he keeps everyone around him at arm's length. But when the city of Boulder is trapped in a mysterious dome, he must set aside his detachment to help his bodyguard Aristotle's search for his missing grandmother. Every step he takes towards the dome deepens the mystery, as he is compelled to seek out

the source of the strange happenings. Flaming dragons, cars transformed into robotic golems, a corporate- military quarantine and disturbing visions drive Bridge to a life-altering conclusion.

if [tribe] =

Leader of the Los Angeles street gang Los Magos is assassinated by the rival El Diablos. As members of the Five Families, war between the two gangs could ignite the whole city, prompting a response from the Chronosoft Law Enforcement Division (CLED) that could destroy all the Families. Artemis Bridge, the amoral fixer with the quick wit vows to stay out of the war despite his friendship with ex-footballer turned gangland revolutionary Stonewall, new leader of Los Magos. Bridge is reluctantly pulled into the middle of the worst civil unrest since the 2027 Riots, where he discovers the war is more than a little tribal bloodletting between rivals. This fast-paced, action-packed cyberpunk thriller is the third in the critically acclaimed Bridge Chronicles series, sequel to Under the Amoral Bridge and The Know Circuit.
